ECEP (a traditional on-campus, in-person delivery) and ECAD (hybrid model – in-person intensive at the start of each semester followed by online). The ECE program at Cambrian College believes in the necessity of relationship building with peers, mentors, faculty which is supported by the research of the ECE field which is why we offer a hybrid delivery versus a fully online version.	4	18 weeks (1,6,5,6)	NA

Cambrian College	Early Childhood Education - Alternate Delivery Compressed Course delivery	ECAD	Flex Learning (Blended)	Full Time, Barrydowne Campus (Sudbury): geared specifically to those who are currently working in the field of early childhood education (must be working for a minimum of six months) Combination of facilitated distance study and intensive on-campus, in-person sessions	5 semesters	Diploma	Field placements are an important component of the program. Since you will already have work experience coming into the program, an individualized placement plan will be developed for you. This is the only alternate delivery program of this type in Ontario.	Placements are unique to each individual student registered in ECAD. If you have interested parties, I would be happy to discuss, via phone or email, their options (PLAR opportunities and/or placement completion with a RECE mentor in their work environment). The in-person sessions take place in different ways for different semester. Fall semesters have either a one or two week in-person, on-campus in Sudbury in August prior to the Sept. start and then students go online, the winter semesters are done virtually for students at a distance. They live stream into the classroom with their peers that live locally. The winter virtual session occurs over three weekends as to not disrupt the work week (Friday nights from 7-10 and all-day Saturday 8:30 – 4:30).
